

**MANAGEMENT COMMITTEE FOR THE  
CHy'S PROJECT ON THE ASSESSMENT OF THE PERFORMANCE OF FLOW  
MEASUREMENT INSTRUMENTS AND TECHNIQUES**

**Terms of Reference:**

- (a) Provide general guidance to the project and develop and update the project workplan as necessary to take into account the different perspectives of the participating organizations;
- (b) Identify gaps and future requirements in relation to the objectives of the Project;
- (c) Make recommendations to the participating organizations on activities that could be considered by those organizations in support of the Project;
- (d) Review periodically the progress of the Project and prepare yearly progress reports to the constituent bodies of the participating organizations; and
- (e) Provide bi-annual reports on progress and other issues deemed of importance to the President of CHy, chair of the Steering Committee of the Project.

**Membership:**

- (a) Representative of IAHR;
- (b) Representative of IAHS;
- (c) Representative of ISO;
- (d) Representative of HMEI;
- (e) Representative of the WMO Regional Working Groups on Hydrology;
- (f) Representative of the WMO Commission for Hydrology (Chair);

Other experts may be called upon to assist the Committee in their personal and professional capacity.

The term of membership is three years. The same representative may be re-appointed by his/her parental organization for an indefinite number of terms.

If it is considered necessary for the implementation of the project, the president of CHy, after consultation with the four other organizations involved, may revise these Terms of Reference and composition of the membership.

**Secretariat Support:**

The WMO Secretariat will provide secretarial assistance to the committee through WMO's Hydrology and Water Resources Branch.

**Modalities of work**

Most of the work will be conducted by email, teleconference and videoconference, with the possibility of holding physical meetings in conjunction with other events where most of the representatives are present.
