

DBNet NETWORK STATUS AND PLANS (February 2019)

(In the tables below, stations are ranked by regional DBNet centre, then by processing centre, then by sub-centre identifier)

Area	Regional DBNet Centre	HRPT Station Name	Latitude (in degree and decimal fraction of degree)	Longitude (in degree and decimal fraction of degree)	Operator	Station Identifier (alphabetic)	Processing centre ID <i>Originating Centre</i> (Code Tables C-1 and C-11)	Sub-centre ID <i>Originating Sub-centre</i> (Code Table C-12)	Processing centre location Indicator in Bulletin (CCCC)	Status for the different services (as of Feb 2019) (PL: planned; RX: Receiving; TS: in test; OP: DBNet operational; OS: out of service; NC: No contact; blank if not planned)

1. FY-3B and FY-3C are received at Honolulu, Madison, Mayaguez, and Hampton but are not delivered to DBNet.
2. Corvallis and Edmonton deliver SNPP only. Testing RDR file repair before delivery to DBNet.

3. Greenbelt site latency is poor and data are not delivered to DBNet.
4. Kiyose site is down for repair. Kiyose delivers SNPP only.
5. Easter Island delivers SNPP only.
