

# 2017 NOAA Satellite Conference (Summary)

**Natalia Donoho**

Satellite Products and Services  
Division (NOAA/NESDIS)

**WMO IPET-SUP-4**

**Geneva, Switzerland**

**February 26 – March 1, 2018**

# Summary

2017 NOAA Satellite Conference  
July 17-20, 2017  
The City College of New York  
NOAA CREST Center, NY

# Summary

- The 2017 NOAA Satellite Conference sponsored by NOAA-NESDIS and hosted by the NOAA Center for Earth System Sciences and Remote Sensing Technologies, was held for the first time in the history of the satellite conference at NOAA's Academic Partner and historical campus of the City College of New York.
- The 2017 Conference focused on the theme "A New Era of NOAA's Environmental Satellites", to promote meaningful interaction and dialogue between user communities and satellite-based data product developers; ensure user readiness of the next generation satellite data; ensure effective communications among users, program managers and product developers; and identify and address high priority research needs and issues for both GOES-R and JPSS satellite information.

# Summary

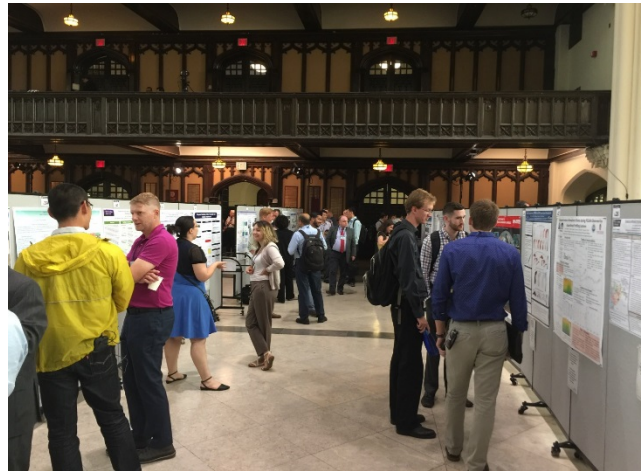

More than 390 participants from 40 different countries attended the conference, with a total of 220 local and international students and young professionals participated throughout the conference.

The main conference was held from July 17-20, 2017 was preceded by a 2-days workshop on July 15-16, 2017. More than 90 participants attended these pre-conference workshops.

Partner organizations included: National Weather Service, National Environmental Satellite, Data, and Information Service, Ocean Prediction Center, National Marine Fisheries Service, Federal Aviation Administration, Centro de Previsão do Tempo e Estudos Climáticos, Japan Meteorological Agency, National Satellite Meteorological Center China, NBC, World Meteorological Organization, Global Partnership on Space Security Applications for Disaster Risk Reduction, WNBC, and SSAI.

# Poster Summary

- There were a total of 138 poster abstracts accepted by the abstract and poster subcommittee.
- The poster viewing was available throughout the week including during all the breaks and two official 90-minute poster viewing sessions on Tuesday and Wednesday afternoons.

# 2019 (Jointly Organized) Satellite Conference

- EUMETSAT Meteorological Satellite Conference, the NOAA Satellite Conference, and the AMS Satellite Conference
- It is scheduled for 30 Sep - 4 October, 2019 at the Westin Water Front in Boston.
