

The Global Climate System Review; June 1996 – December 2001

Table of Contents

Co-ordinating Lead Authors

Foreword

Chapter 1 Executive Summary (Albert Klein Tank)

Chapter 2 The Global Ocean – Atmosphere System (Ed O’Lenic)

2.1 El Niño/Southern Oscillation (ENSO) cycle – A cold-warm-cold cycle

2.2 Madden Julian Oscillation

2.3 Northern hemisphere circulation

2.4 North Atlantic Oscillation

2.5 Southern hemisphere circulation

Impacts of El Nino-Southern Oscillation in South America

The WCRP CLIVAR Programme – studying ocean-atmosphere interactions

Chapter 3 Temperature and Precipitation (David Parker)

3.1 Global and hemispheric temperature trends

3.2 Regional temperature and precipitation series

3.3 Annual global spatial distribution of temperature and precipitation

3.4 Seasonal spatial distribution of temperature for winters and summers

3.5 Seasonal extremes

3.5.1 Africa

3.5.2 Asia

3.5.3 South America

3.5.4 Central America, North America and the Caribbean

3.5.5 Pacific and Oceania

3.5.6 Europe

Extreme Indices and Climate Change Detection

GCOS Climate Monitoring Principles

Chapter 4 Drought (Abdallah Mokssit)

4.1 Introduction

4.2 Africa

4.3 Asia

4.4 South America

4.5 Central America, North America and the Caribbean

4.6 Pacific and Oceania

4.7 Europe

The Hydrological Cycle

Chapter 5 Flooding (Andrew Watkins)

5.1 Introduction

5.2 Africa

5.3 Asia

5.4 South America

5.5 Central America, North America and the Caribbean

5.6 Pacific and Oceania

5.7 Europe

Yangtze Flooding

Chapter 6 Monsoons (U.S. De)

- 6.1 Introduction
 - 6.2 Indian Monsoon
 - 6.3 East Asia monsoons
 - 6.4 Australian and Indonesian monsoons
 - 6.5 The North American Monsoon
- The North American Monsoon Experiment*

Chapter 7 Storms (Jay Lawrimore)

- 7.1 Introduction
- 7.2 Tropical Storms over the Atlantic
- 7.3 Tropical Cyclones in the western Pacific
- 7.4 Eastern and central Pacific cyclones
- 7.5 Cyclones in the Indian Ocean
- 7.6 Tropical Cyclones affecting Australia and the South Pacific
- 7.7 Extratropical storminess
 - 7.7.1 Africa
 - 7.7.2 Asia
 - 7.7.3 South America
 - 7.7.4 Central America, North America and the Caribbean
 - 7.7.5 Pacific and Oceania
 - 7.7.6 Europe

Storm Surges

US Hazards Assessment

Hurricane Mitch

Chapter 8 The Cryosphere (Albert Klein Tank)

- 8.1 Introduction
- 8.2 Arctic and Antarctic ice extent
- 8.3 Northern hemisphere snow cover
- 8.4 Glaciers and permafrost

The CLIC Programme

Chapter 9 Biological systems (Robert Stefanski)

- 9.1 Introduction
- 9.2 Global crop production review
- 9.3 Forest fires and wildfires

Phenological Climate Information

Chapter 10 Trace Gases and Ozone (Jay Lawrimore)

- 10.1 Introduction
- 10.2 Carbon dioxide
- 10.3 Methane
- 10.4 Other trace gases important for climate and stratospheric ozone depletion
- 10.5 Surface (tropospheric) ozone
- 10.6 Total and stratospheric ozone
